

~~Sprint~~ Review 1 Notes : Duncan Millard

Bug in code v question

upload file only if viewed by TA
Error messages

"Follow" Col. Name

TA post solution

→ upload pic or file of solution

Integrate w/ piazza for after question review

Question

Question ... Follow

Want to see full text

In Queue → In Progress (potentially add TA name)

Add After Create → unclear

→ assume you will auto add

View course

TA shouldn't make new courses

→ admin should create courses

→ expect to be assigned to courses

Not sure how to remove from course

Fixed x is delete from class

Manage page on TA view

TA wouldn't expect to be able to leave course

States → Resolution

1. Will not resolve

2. Handled in class

3. Deferred Resolved → Add answers later
TA gets view of qs answered

Fixed tablet with card reader
i prompt for question

Tablet dedicated top question → begin/claim

Question queue use

Answer remote → social piazza

Notification system can't be TA driver
