Sprint Retrospective
Add question, Add class, Add TA

11/6:

Billy: Manage classes
    Search?
    class code
    add after create?
    list of classes
    Success/failure (why)

  Add (admin)
    autocomplete class
    plus to add onid
    (add / submit)

Suggestions:
    Notifications
    (add question)

Louis: Time slightly darker
    (minus to plus)
    Commas versus spaces
    box in other corner?
    Extra white space
    click outside to quit add
    Specify class versus admin
    Slide down to expand question
    Post time → time
    name of TA
    Time on top? → decide if can show up today
    Later
    Add description of add on
    Canvas API → TA check
    TA switch to user view (test student)
    Stats about student poster → track TA abuse

Alex

Question tags (debugging vs. Conceptual)
CS 16X all same office hours

Lilly:

11/7:
Kaitlin: ~~Question~~ All pages that worked
yesterday no longer work...
